

## QUICK TO CLEAN, QUICK TO DRY

Improve your carpet's appearance and open your floors to traffic in only 20 minutes with iCapsol interim cleaning technology.

# Discover the benefits of interim cleaning.

Quick to clean, quick to dry, the iCapsol Mini Deluxe is the productive solution for carpet cleaning. The iCapsol interim carpet cleaning process cleans carpets faster, improves the appearance and keeps the carpet cleaner longer. Cleaning carpet quickly in a 24/7 environment is the challenge you face. With deep extraction, the carpet dries slowly due to lack of airflow through the carpet fibers that are constructed of dense loops. With the iCapsol encapsulating cleaning technology, we provide a way to get your carpet cleaner faster—and with longer lasting results. The iCapsol Encapsulating Interim Cleaning chemical breaks down and then surrounds the soil and other detergent residue from previous cleaning. It dries into a hard, non-sticky crystal, encasing the soil, in about 20 minutes. The dried crystals can easily be removed by vacuuming. The result is carpet that is clean and dry and ready for use quickly

## 1 Productive carpet cleaning

- Productively clean and freshen up carpet surfaces with less effort
- Built-in on-board spraying system for increased productivity
- Uses Red Carpet iCapsol Encapsulation Interim Cleaning Chemicals

## 2 Encapsulation technology

- iCapsol technology encapsulates the soil in microcrystals that are non-sticky and won't attract more soil. The residue is easily vacuumed when carpet is dry
- Low moisture encapsulation carpet cleaning process removes soil while improving the overall carpet appearance; carpet dries in about 20 minutes while reducing water and detergent consumption

## 3 Thorough and effective

- Unique brush system features two counter-rotating brushes to effectively clean and agitate both sides of the carpet nap
- Counter-rotating brushes lift and groom the carpet pile, while the debris bin catches soil and debris
- Streamlined, compact design makes it easier for the operator to clean in congested areas
